

**What does zero-rated mean?**

It entails access to certain internet sites/services without any financial or data cost.

Legend to the Zero-rated service table:

✓ = no data cost (Zero-rated).

✗ = the use of this service will have associated data costs.

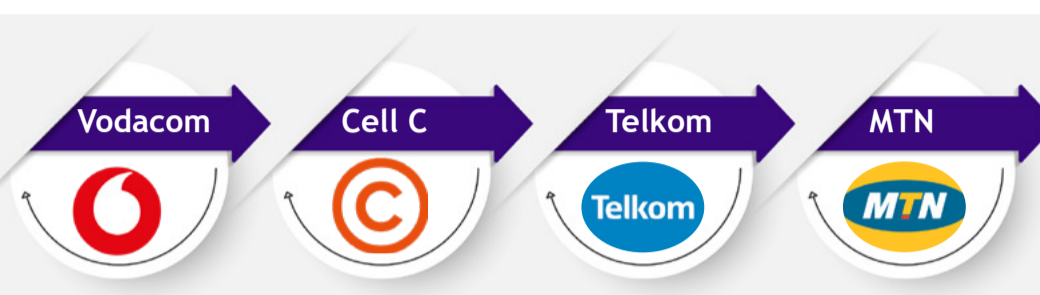

**Remember**

Any other connectivity driven application (not listed) that is open on your device will have incurring data costs.

**Example**

If you are on eFundi and simultaneously playing a YouTube video, the YouTube video will lead to costs while the access to eFundi will be free. Be careful of following external links pointing to areas outside of these domains as they will incur cost (e.g. a Google Drive link on an eFundi assignment)

MTN capped Zero-rated service usage to 500MB per month

**THE FOLLOWING SERVICES ARE AVAILABLE AS ZERO-RATED AND IS ONLY APPLICABLE FOR THE FOUR MENTIONED SERVICE PROVIDERS.**

01

You need a small amount of data in order to authenticate to most of these services. **Fortunately, you do not need any data to authenticate to, or access eFundi.**

02

We are currently negotiating reverse billing with Panopto for the UODL lecture capture videos. **We will inform you should the status change.**

**THE FOLLOWING INFORMATION IS SUBJECT TO CHANGE AT ANY TIME.**
