

eFundi Tutorial: How to import content from one eFundi site to another

There are different ways to move content from one eFundi site to another.

Tip: You can import content from a previous site when creating your new module/course site. Please refer to the [course creation tutorial](#) for steps on how to do this.

Login to eFundi and navigate to your **new eFundi site**.

Select **Site Info** in the menu on the left.

Tip: You must have the same eFundi tool active on the new eFundi site if you want to be able to import the content to this new site. To add any tools that might be missing, please refer to the [add/remove tools](#) tutorial.

The screenshot shows the eFundi interface. At the top, there is a navigation bar with a home icon, a dropdown menu showing 'AAAA 111 Dra ft Year 2019', and another dropdown menu showing 'AAAA 111 V Year 2019'. Below the navigation bar is a left-hand menu with various options: Overview, Announcements, PostEm, Gradebook, Markbook, Tests & Quizzes, Podcasts, Statistics, Site Info (highlighted with a red box), and Resources. To the right of the menu is the 'SITE INFO' page, which includes tabs for 'Edit Site Information', 'Manage Tools', 'Tool Order', and 'Add F'. The main content area displays the site name 'AAAA 111 V Year 2019' and various site details such as Term, Member List(s) with site access, Site URL, Site contact and email, Available to, Modification date, Modified by, Display in Site Browser, Creation date, and Appearance.

Select the **Import from Site** tab at the top.

The screenshot shows the 'SITE INFO' page with a gear icon and 'Link' and 'Help' buttons. Below the header is a row of tabs: 'Edit Site Information', 'Manage Tools', 'Tool Order', 'Add Participants', 'Edit Class Member List(s)', 'Manage Groups', and 'Link to Parent Site'. Below this row is another row of tabs: 'External Tools', 'Manage Access', 'Import from Site' (highlighted with a red box), 'Import from Archive File', and 'User Audit Log'.

Choose the method of import that you would prefer:

The screenshot shows the 'SITE INFO' page with a gear icon and 'Link' and 'Help' buttons. Below the header is the 'Import Data' section. It contains a text box with the instruction: 'Please choose a method below to proceed:'. Below this are three options, each with a link and a description: 1. [I would like to replace my data](#): Any existing data will be overwritten, replaced by your import data. 2. [I would like to merge my data](#): Your imported data will merge with existing data. 3. [I would like to merge my user\(s\)](#): Your imported user(s) will merge with existing users. This method does not import roster-provided users.

Next, you will select the eFundi site you would like to import the content from by clicking the relevant checkbox. Once the site(s) have been selected, scroll to the bottom and click the **Continue** button.
