Link to documents & instructions

## Research One Stop eFundi site

Provide students with all the necessary information to successfully complete their post graduate studies.

The site follows the student life cycle and provides information related to each step.

This information is managed and regularly updated.

Students can join the "join-able eFundi site" by clicking the link provided.

Sections within refers to the Post-Grad assignments.

The link is also provided on the NWU Web-site.

This site is brought to you with the input from all the academic support departments at the NWU and is supported from the Research Support office.

## Individualised eFundi Site

When requested, the "Structure & Assignments" site can be copied to your Faculty/ entity/ programme/ module site.

Students submit their documents on your site.

You add any information needed or specific to you or your Faculty/ entity/ programme/ module.

Provide links to the Research One Stop eFundi site.

Link to your students

## Research One Stop Structure & Assignments site

Site structure is already set up and ready to copy.

Has draft assignments for you to choose from and to edit.

Created as a central place for students to upload requested documents (document management).

Once copied to your site, you are free to edit its content to fit your needs.

Provides students with the link to the One Stop information site.

## Request for the "Research One Stop Structure & Assignments site" to be added to your site

- 1 Create your Project site for your Faculty/ entity/ programme/ OR Course site for your module.
- 2 Log a "Lecturer Support" request with CTL to copy the "Research One Stop Structure & Assignments site" to your Individualised eFundi Site.
- 3 Wait for CTL to help you OR contact the following for more information:  
Doret Kruger - doret.kruger@nwu.ac.za - 018 285 2076  
Molebogeng Maisela - 28732022@nwu.ac.za - 018 299 4933

## How you can set-up and use your eFundi site with the Research One Stop

- 1 **Faculty** Use your Project site to manage and organize the collection of documentation from students, advisers and faculty.
- 2 **Entity/Programme** Use your Project site to manage and organize the collection of documentation from students and advisers.
- 3 **Module** Use your Course site to manage organize your module content and resources while managing information to your post-grad students
