# eFundi

# Assessment

Even though classes have been disrupted or could not take place it does not mean all is lost. eFundi offers a few assessment tools that would enable you to assess your students online.

## eFundi Assessment Tools:

- \* The **Tests & Quizzes** tool is a fantastic assessment tool that enables you to test your students' knowledge. When using the Multiple choice, matching, extended matching, fill in the blank and True/False questions eFundi does the marking so you don't have to!
- \* The **Forums** tool allows you to have those discussions that you missed in class. With the integrated grading you can easily grade students' comments and use statistics to determine participation.
- \* The **Assignments** tool is the best place for students to submit assignments when they cannot come to campus to submit hard copies.

## Tips/Suggestions:

Use question pools to setup tests with randomly selected questions. Use the feedback option to provide them with feedback for future reference and to help students better prepare for the exams.

Use the Forums tool to have those discussions you would have had in class. Or upload a video to your Forums tool explaining a concept, then allow students to pose questions they might have regarding the work.
