Assessment Name:

Assessment type:

Assessment format:

Date of Submission:

Declaration Overview

This declaration applies to all submissions for the above assessment. All contributors listed (below) are expected to read and understand the contents of this declaration prior to submission.

For group submissions:

- Each listed contributor may sign individually to confirm acknowledgment and shared responsibility.
- If only one contributor signs on behalf of the group, that signature confirms that all listed contributors have reviewed and agreed to the declaration in full.
- All contributors will be held equally accountable under the same conditions.
- No contributor may claim exemption from responsibility on the grounds of not having signed individually.

By ticking the box below and signing at the end of this document, all listed contributors confirm that this submission is the result of original work and that all sources consulted have been properly acknowledged. No part of this submission has been copied, paraphrased, or reproduced from any source (including peers, online platforms, or AI tools) without appropriate citation. Any form of plagiarism, including the use of unacknowledged AI-generated content, constitutes academic misconduct and may result in disciplinary action in accordance with institutional procedures.

Confirmation that the declaration has been read and understood.

Student details

Add your student number, and surname and initials below, in the case of a group assessment all group members should be listed.

Student Number **Surname & Initials**

AI Declaration

- The NWU permits the use of AI tools only when explicitly authorised by the lecturer and used ethically and transparently (for more information read the NWU Senate Rules on the Ethical and Responsible use of AI),
- Any AI-generated content must be properly acknowledged and must not misrepresent authorship, understanding, or academic effort.
- Undisclosed or unethical use of AI may be investigated as academic misconduct under NWU's Academic Integrity Policy and related SOPs.

Lecturer's Position on AI Use

Before completing this section, indicate the lecturer's stated position regarding the use of Artificial Intelligence (AI) tools for this assessment. This declaration must reflect the guidance provided for this specific module and assessment. **Note:**

- The use of AI is only acceptable when clearly stated as allowed and applied ethically and transparently.
- If AI use was not allowed and evidence of use is found, this may constitute academic misconduct and will be referred for disciplinary action in accordance with NWU's Academic Integrity Policy and Standard Operating Procedures.
- Any AI-generated content must be acknowledged and must not misrepresent authorship, understanding, or academic effort.
- Failure to disclose AI use, or misrepresenting its role, may also result in disciplinary consequences.

Select the option below that best reflects the lecturer's stated position (or assessment instructions) regarding the use of Artificial Intelligence (AI) tools for this specific module and assessment:

AI Usage Declaration Table: Use the space below to provide a detailed account of any Artificial Intelligence (AI) tools or platforms used during the preparation of this submission.

AI Tool Used [e.g. ChatGPT, Gemini, Grammarly AI]

Purpose of Use [e.g. Brainstorming, Grammar Check, Explaining Concepts]

Assignment Section [e.g. Introduction, Paragraph on X, Conclusion]

When was it Used [e.g. Planning, Drafting, Final Editing]

Acknowledged? [Explain how you acknowledged the use of AI.]

Reflection on AI Contribution [e.g. Helped clarify ideas, improved grammar, did not replace original thinking]
